

The right value for the right price !

DOUCET MACHINERIES INC.

60 years serving the wood industry !

The reference in the industry !

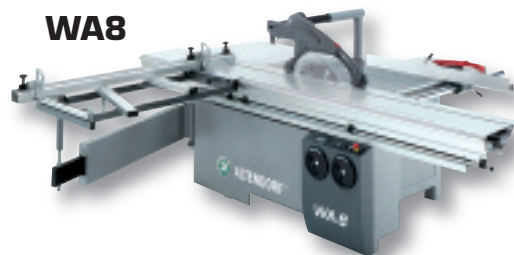

F45 ELMO
CN technology - exclusive functions
Controlled axes - 12" touch screen - vario drive

The unique Altendorf sliding carriage: precision and smooth sliding

WA6

WA8

WA80X

F45 Perform

CEHISA Edgebanders

Bryko series

Pro series

EP series

Affordable solutions for your edgebanding needs

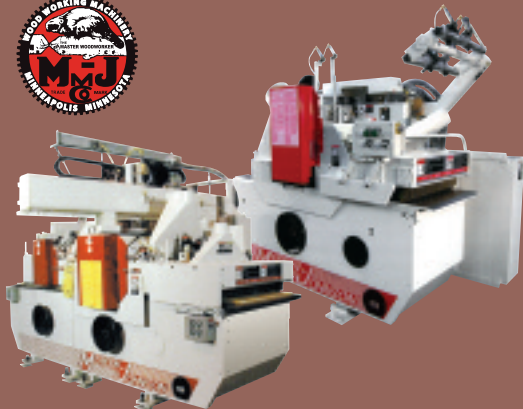

Multiple spindle boring machines for panel processing

Automatic stop systems
Get fast, get accurate,
get automated !

Multiple rip saws with stationary or moving blades

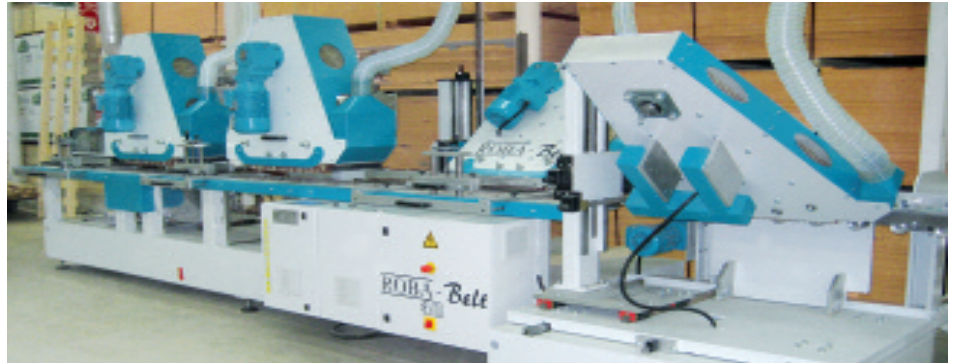

MB Masc. GmbH

Flexible and efficient brush sanding technology

Roba - Tech
The only machine with the 360° rotational head for uniform processing on the 4 edges

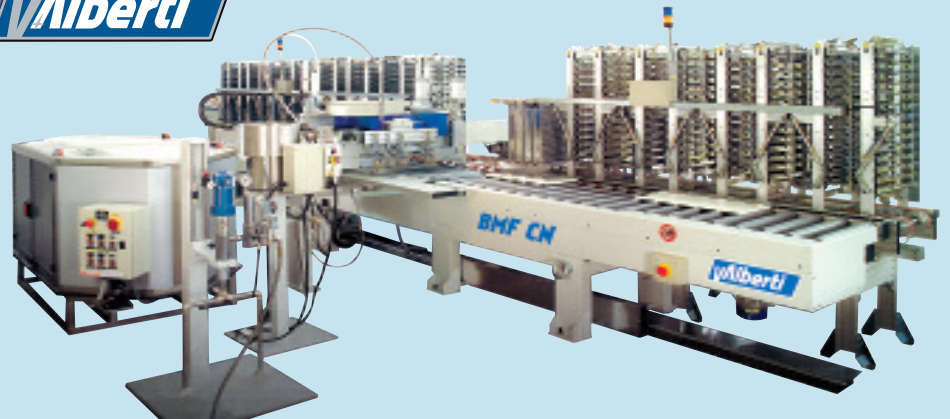

Roba - Belt For efficient and flexible sanding of profiles and mouldings

Roba-Duplex
For edge processing of furniture front panels, kitchen doors

LA-500
The solution for glue application on tenons !

Advanced solutions for flexible drilling and hardware insertion

**Machinery for chair
and furniture components**

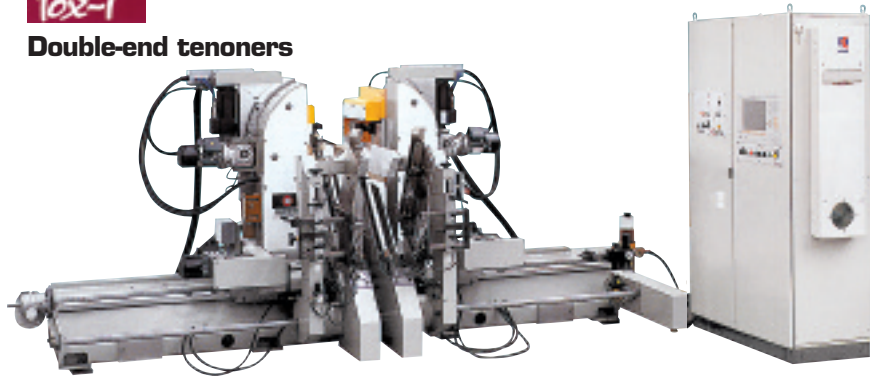

Pro MD/2

Flexible CNC systems for doors
in solid wood or covered MDF
tenon-mortice joints, 45° or 90°

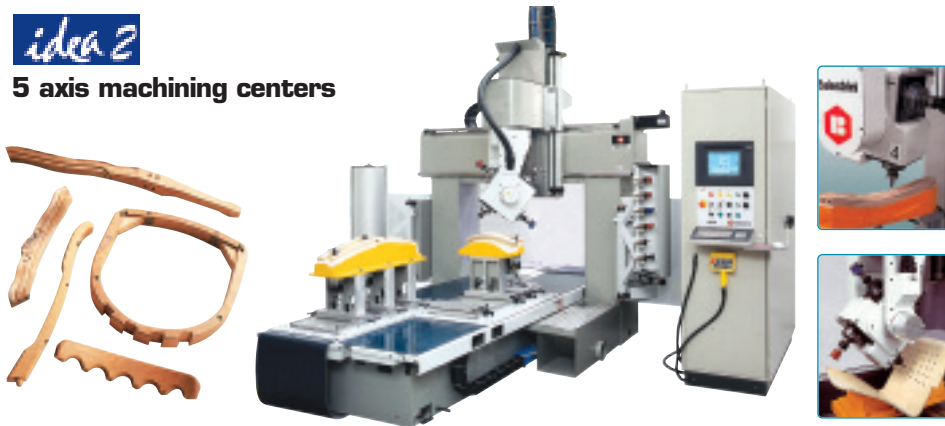

Fox-T

Double-end tenoners

idea 2

5 axis machining centers

**Dovetail machines and
complementary equipment**

**Coping/end matching
systems**

C-1203 / C-1205

World class moulders; proud of their tradition

Double-sided surface planers

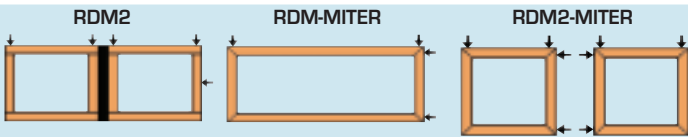

DOUCET MACHINERIES INC.

Clamping solutions for doors

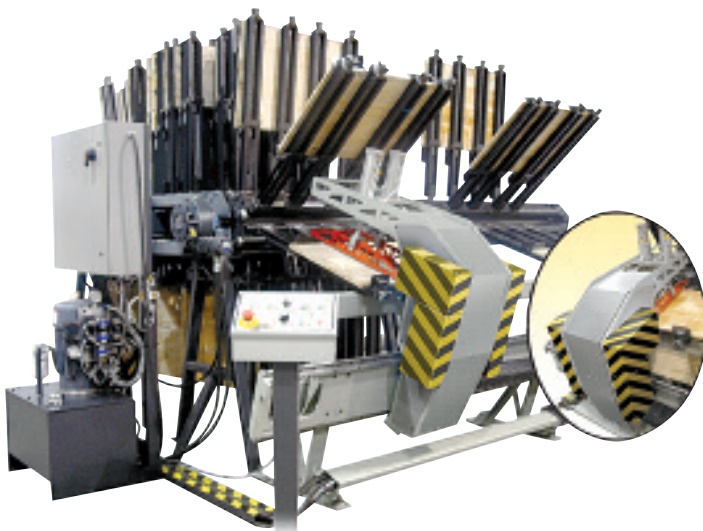

RDM

Speed up your assembly with these systems !

Rotary clamp carrier

Return conveyors

For edgebanders

For moulders

For wide belt sanders

For rip saws

For shape and sand

Our mission:

Selling you the right machine for your application

Putting your machine in production quickly and efficiently

Helping you to maintain machine performance and minimize downtime
