

For uniform processing on the 4 edges of your doors, you need the 360° rotational head.

MB

Flexible and efficient brush sanding technology

Roba - Tech Profi Disc

For solid wood fine sanding, MDF parts, and intermediate lacquer sanding.

Features that really make a difference:

- Full rotation (360°) of sanding unit resulting in similar treatment of all 4 edges of a 5 piece door.
- The work piece is completely covered and in contact with sanding paper for 5 to 8 seconds.
- 3 Axis sanding disc system: 1) rotating disc, 2) disc wheels containing four rotating discs, 3) the whole aggregate carrying the disc wheels is oscillating.

This results in optimized obliteration of sanding marks.

NEW !

650 mm version now available !

All axis are separately adjustable allowing the user to vary all sanding parameters.

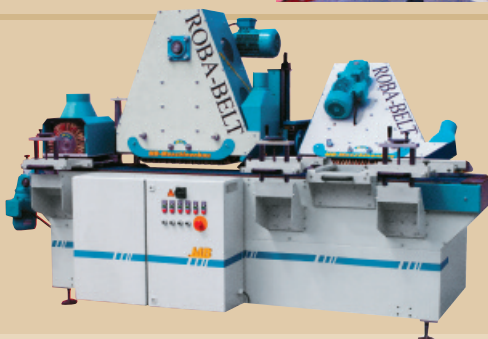

Roba-Duplex For edge processing; furniture front panels, kitchen doors

- 2 Positions for 2 grits.

Roba-Belt For components and mouldings

- Modular machine with a large choice of configurations.
